About This Game

Malicious Payload is a Sci Fi Arcade Shooter game. There are two modes in the game: Survival and Story mode.

Survival

The longer you stay, the more successful you are. You can increase your reputation on Leaderboards worldwide. Malicious robots comes in waves in increasing form, will do anything to terminate you. Take the guns from robots you killed, or choose one you want from Holo Menu.

Story

You're a security guard on Minutor-CCXVI. You're having a boring day and you fallen asleep in the security room. Suddenly the computer shows security alerts. You check the security cameras and you can't see anything. But the system is captured by the space pirates, they sent a virus called Malicious Payload to the mainframe. The ship undergoes a loss of energy and begins to drift through space. You come out of the security room to understand what happened, but the miner-bots have turned into lethal robots. You think you can save the ship?

The Getaway: High Speed II™ Just Released!:
The Getaway: High Speed II™ has just been released!

The Getaway: High Speed II™ (1992): is the spectacular sequel to High Speed™, released in 1986 and also designed by Steve Ritchie. Players shift into high gear as they start Multi-Ball by running red lights and then collect Jackpots to escape from the pursuing police. A standout feature on this table is the Supercharger magnetic ball accelerator, which spins balls at dizzying speeds for wild excitement and scores! An actual gear shifter on the front of the cabinet launches balls onto the playfield and shifts through features during game play. 13,259 units of this table were produced.

. **No Fear: Dangerous Sports™ Just Released**:
No Fear: Dangerous Sports™ (1995): combines extreme sports with extreme pinball. Created by a design team led by Steve Ritchie, players are challenged with competing in the most daring events in the air, snow, asphalt, dirt and water. These include free climbing, water skiing, super-cross, extreme skiing, auto racing and more! The playfield features excellent flow with easy-to-follow shot lights and a talking skull who calls out what to aim for. The magnetic ball accelerator sets players up to take a flying leap across the Jump Ramp's void. A little danger makes it a lot of fun! 4,540 units of this table were produced.

. **Phantom of the Opera™ has just been released!**:
Phantom of the Opera™ has just been released for Steam (Mac/Windows), Google Play, Amazon and Ouya!

Phantom of the Opera™ (1990): is based on the classic novel from Gaston Leroux, published in 1910. Designed by Joe Kaminkow and Ed Cebula, this game makes excellent use of its license with outstanding audio effects and imagery that tells the story of the Phantom. The playfield features incredible artwork by world-renowned artist, Paul Faris with images of many of the characters from the novel, including the Phantom and Christine Dae. Other notable features are the Catwalk Ramp, Magic Mirror, Trap Door and an Organ that opens for Multi-Ball. The Phantom can even be unmasked and his true face revealed on the back glass! This is the first Data East™ table to be added to the Pinball Arcade.
